

Ashikur Rahman *Software QA Engineer*

ashikurrsun@gmail.com | +880 1705616580 | LinkedIn | GitHub

SUMMARY

QA Engineer with 3+ years of testing mobile, web, and API apps in Agile environments. Skilled in manual, exploratory, and automation testing via Selenium, Appium, and Postman. Driven by quality, collaboration, and continuous improvement.

PROFESSIONAL EXPERIENCE

Brain Craft Ltd.

Software QA Engineer L-1

01/2023 – Present
Dhaka, Bangladesh

- Tested Photo-Blur & Video Editor (Dev Phase): functionality and UI consistency.
- Built and executed API test cases in Postman; maintained sprint-level QA documentation.
- Managed asset deployment pipeline: pulled updates via Git, compiled text-effect .plist metadata locally, and verified rendering stability before production release.

Junior Software QA Engineer

- Manual tested *Video Crop* , *Add Music to Video* , and *Sticker Maker*  across functionality, UI/UX, and integration.
- Generated and validated AI prompts for NSFW content detection and filtering during ML model development.
- Automated export time validation for Background Remover: *Erase BG*  using Appium.
- Collaborated with ML team on AI features: *Text-to-Image for Edit Up*: *AI Photo & Video Editor* , *Text-to-GIF & Face Swap for GIF Maker* .

Trainee Software QA Engineer

- Executed functional, smoke, sanity, and exploratory tests across 250+ iOS and Android features.

SKILLS

Testing QA: Manual & Exploratory Testing | Regression & Smoke Testing | API Validation | Test Case Design | Bug Tracking | Agile QA Practice.

Tools & Concepts: Postman | JIRA | Selenium | Appium | Playwright | Git & GitHub | VS Code | SDLC | STLC | OOP | Data Structures | Cross-platform QA | Fintech QA Fundamentals | Machine Learning.

Programming: Python | JavaScript | C++.

Database: MySQL (Queries, Data Validation).

Performance Security: JMeter | Basic API Load & Stress Testing | Log Analysis.

PROJECTS

Erase BG – Android App

Automated app validation (UI & export time) using Appium.

OrangeHRM Automation (Python + POM)

Built a modular automation framework for login, admin, and employee workflows using Selenium Web Driver.

AUTOMATIC INDUSTRIAL MONITORING SYSTEM (AIMS)

Designed an automated industrial monitoring system with mobile app integration.

EDUCATION

Bangladesh Army University of Engineering & Technology

BSc in Computer Science & Engineering

CGPA: 3.41 (on a scale of 4.00)

01/2017 – 08/2021
Natore, Bangladesh

COMPETITIVE PROGRAMMING ACHIEVEMENTS

- Codeforces: Newbie (Rating: 827), ID: [L.Lawliet](#) 
- Participated (6th) in Mind Storm Programming Contest-2020, organized by BAUET Computer Society
- Participated in MIST NCPC 2020, organized by the National Collegiate Programming Contest (NCPC)
- Second Runner-Up, Intra-University Programming Contest, BAUET, 2019
